

GRATING PACIFIC

ACO DRAIN - KLASSIKDRAIN K200/KS200

Polymer Concrete Catch Basins

Polymer concrete catch basins are used either as stand alone area drains or more commonly as the outlet to a trench run. They provide the highest hydraulic output and allow easy access to pipe system for maintenance.

Type 900 provides an in-line catch basin (same width and visually indistinguishable from the trench run) and the Series 600 is 12" wide and provides greater a hydraulic output.

K200 Catch Basins Parts Table

| Part Description | Part No. | | Volume Gallons* | Weight lbs. |
|--|----------|-------|-----------------|-------------|
| | K200 | KS200 | | |
| K2-902 in-line catch basin - 19.69" | 94611 | 94612 | 18.1 | 68.0 |
| K2-621 catch basin - 19.69" | 94520 | 94621 | 30.4 | 91.0 |
| K2-631 catch basin - 19.69" | 94633 | 94634 | 40.2 | 101.0 |
| Series 600 optional riser | 99902 | | 9.8 | 10.0 |
| Foul air trap - fits both 902 & 600 basins | 90854 | | — | 1.2 |

* Volume is up to grate seat and without trash bucket.

K2-Series 600 12 in. Wide Catch Basin (with riser)
